

For both Apple and Android Phones

Blitz Box Scoreboard Controls

How-to

Before game begins:

1. Scan QR code on the Blitz box in the referee box
2. Download and open the Blitz Sports App
3. Allow app to use Bluetooth
4. Make sure that the traditional scoreboard control is turned off
5. Switch the control on the side of the Blitz box from 'Old' to 'Blitz'

To connect scoreboard:

1. Select Settings in the top right corner 
2. Select 'Scoreboard'
3. Find and connect to the correct scoreboard
(Make sure Nevco score clock is off)
4. Start a new game with your requested periods, intermission, and warm-up times
5. Once the game has started you can select and change any numbers on the score clock including shots, goals, and periods by just taping on the number

Troubleshooting:

1. Ensure all cables are plugged in to the correct connection. The power source for the Blitz box is the livebarn box.
