

EQUIPMENT SIZING - PLAYERS

New to hockey? It is important to wear your equipment properly!

Additionally, it is important to note:

- ❖ Hockey sticks should be between the child's chin and nose --- while ON skates.
- ❖ Hockey Tape should also be put on both the 'butt end' and blade of the stick.
- ❖ Skates 'out of the box' are NOT sharp. They will need to be sharpened prior to the participants first skate session.

FULL EQUIPMENT is ALWAYS MANDATORY!!
